

Het nieuwe meten: meten met computers, dataloggers, tablets, smartphones en chromebooks

WELKOM

Eurofysica[®]
HOLLAND

Exact wat u nodig heeft

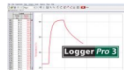

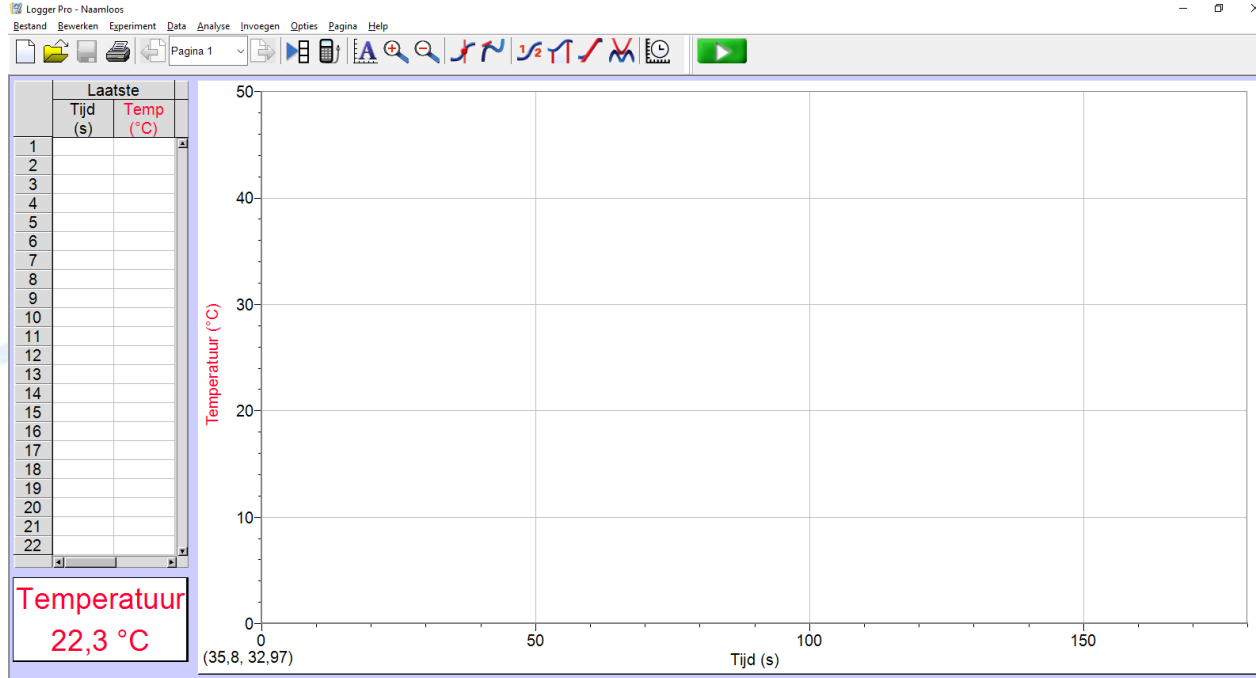

Waar gaan we het over hebben?

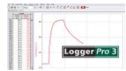

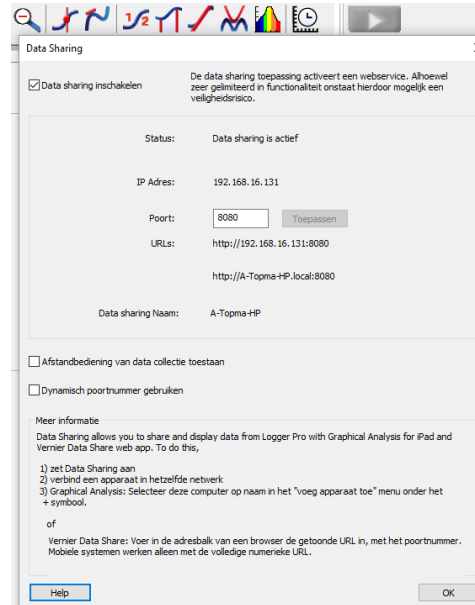

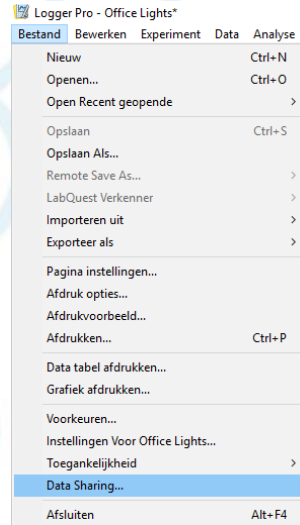

- Meten en data delen met Logger Pro
- Meten en data delen met LabQuest
- Meten met de browser app
- Meten met de Graphical Analysis App
- Wireless sensoren

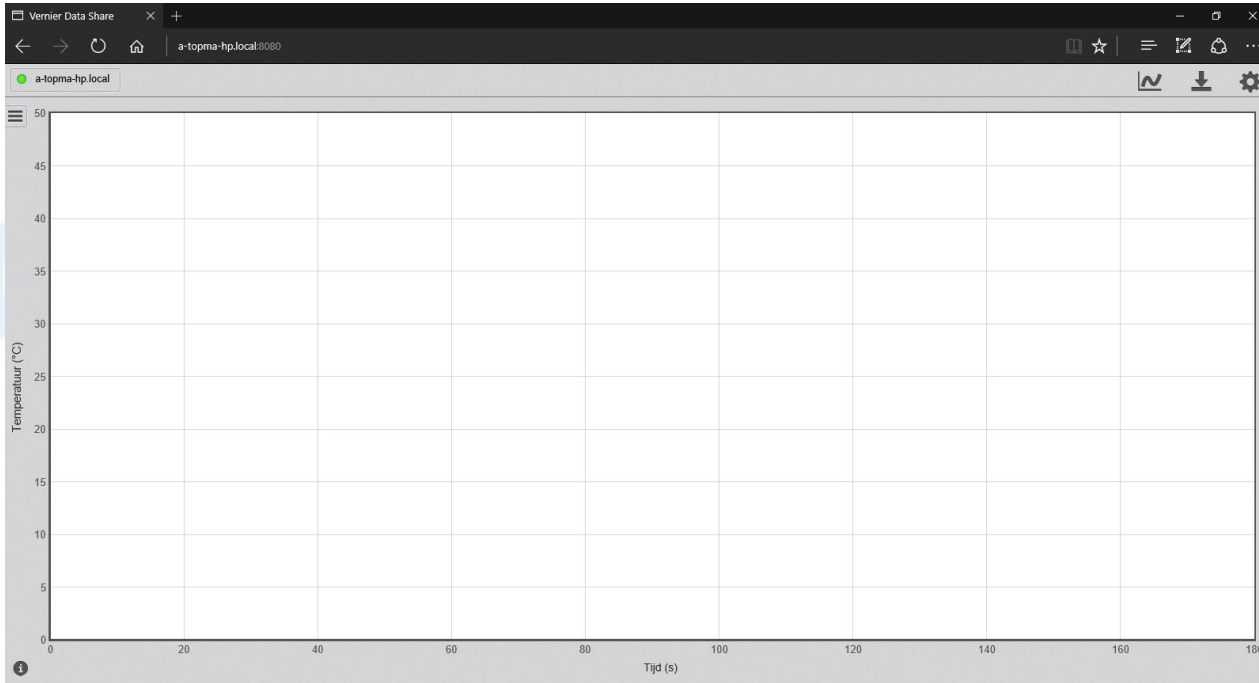

Het nieuwe meten: meten met computers, dataloggers, tablets, smartphones en chromebooks

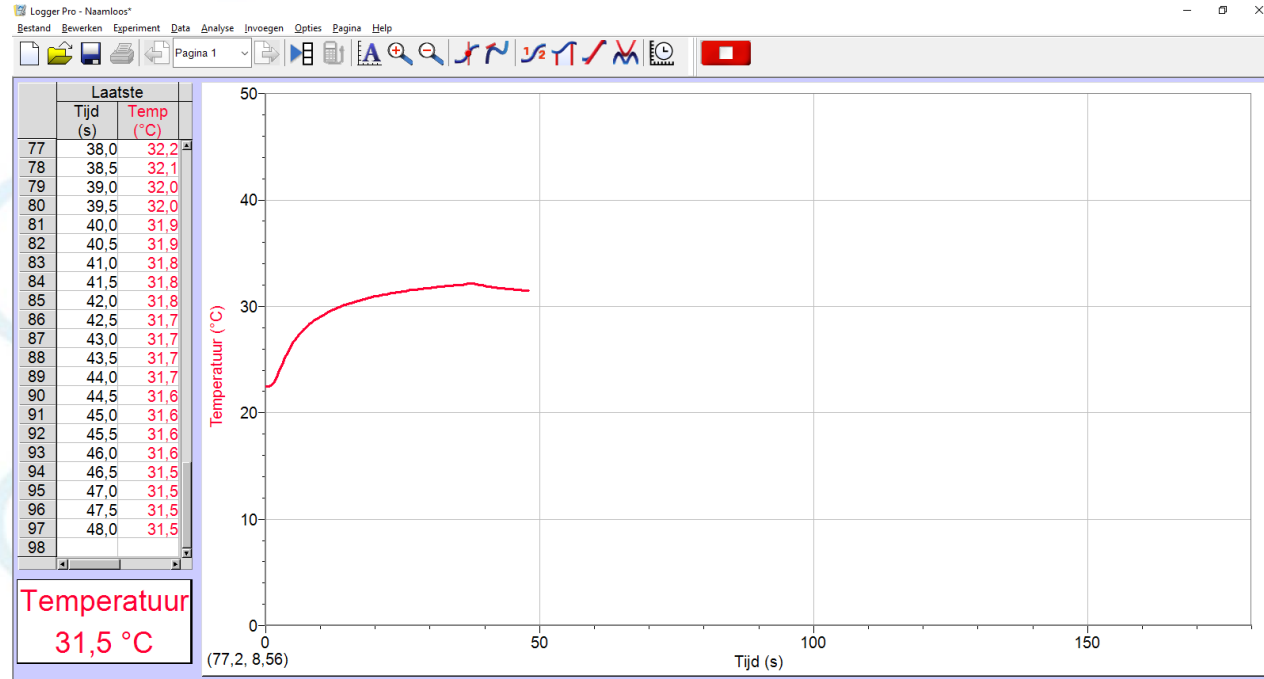

Het nieuwe meten: meten met computers, dataloggers, tablets, smartphones en chromebooks

De LabQuest kan worden gekoppeld met een draadloze sensor en vervolgens dienen als bron voor data-sharing

De belangrijkste voordelen nog eens op een rijtje:

- Ervaring met multi-platform meten
- Zeer eenvoudig om een meting op te zetten
- Compatibel met alle analoge sensoren in het +/- 10 Volt bereik
- Eenmalige aanschaf van Logger Pro meetsoftware, gratis updates
- Geen extra kosten multiplatform gebruik: gratis Apps voor tablets, chromebook en smartphones.
- Zeer uitgebreide gratis bibliotheek Engelstalige experimenten
- Koppeling met Arduino

Vragen?

Bedankt!
